**POLL PLUGIN**

VERSION 2.2.0

# POLL PLUGIN

## LOOK & FEEL

1. Obtaining feedback on specific topics, events and processes.
2. What do my colleagues think about certain circumstances or topics?
3. Live voting with real-time evaluations!

## Use Cases

## FEATURES

- One of **three question types** can be used for a question: Button, slider and free text.
- Unlike a quiz, there are **no right or wrong answers**.
- The user can only do the poll **once** - as soon as an answer to a question is saved, he can no longer change his answer.
- At the end of a survey the participants can optionally see the **evaluation**.
- The answers can be exported centrally using a **CSV file** (optionally anonymous).
- All contents can be created in **multiple languages**.
