1 NEW FEATURES

- Configuration of the start page - separation of picture and headline
-

2 IMPROVEMENTS

- New language support: Finnish
-

3 BUGFIXES

- Minor bugfixes, nothing to talk about...
-

01

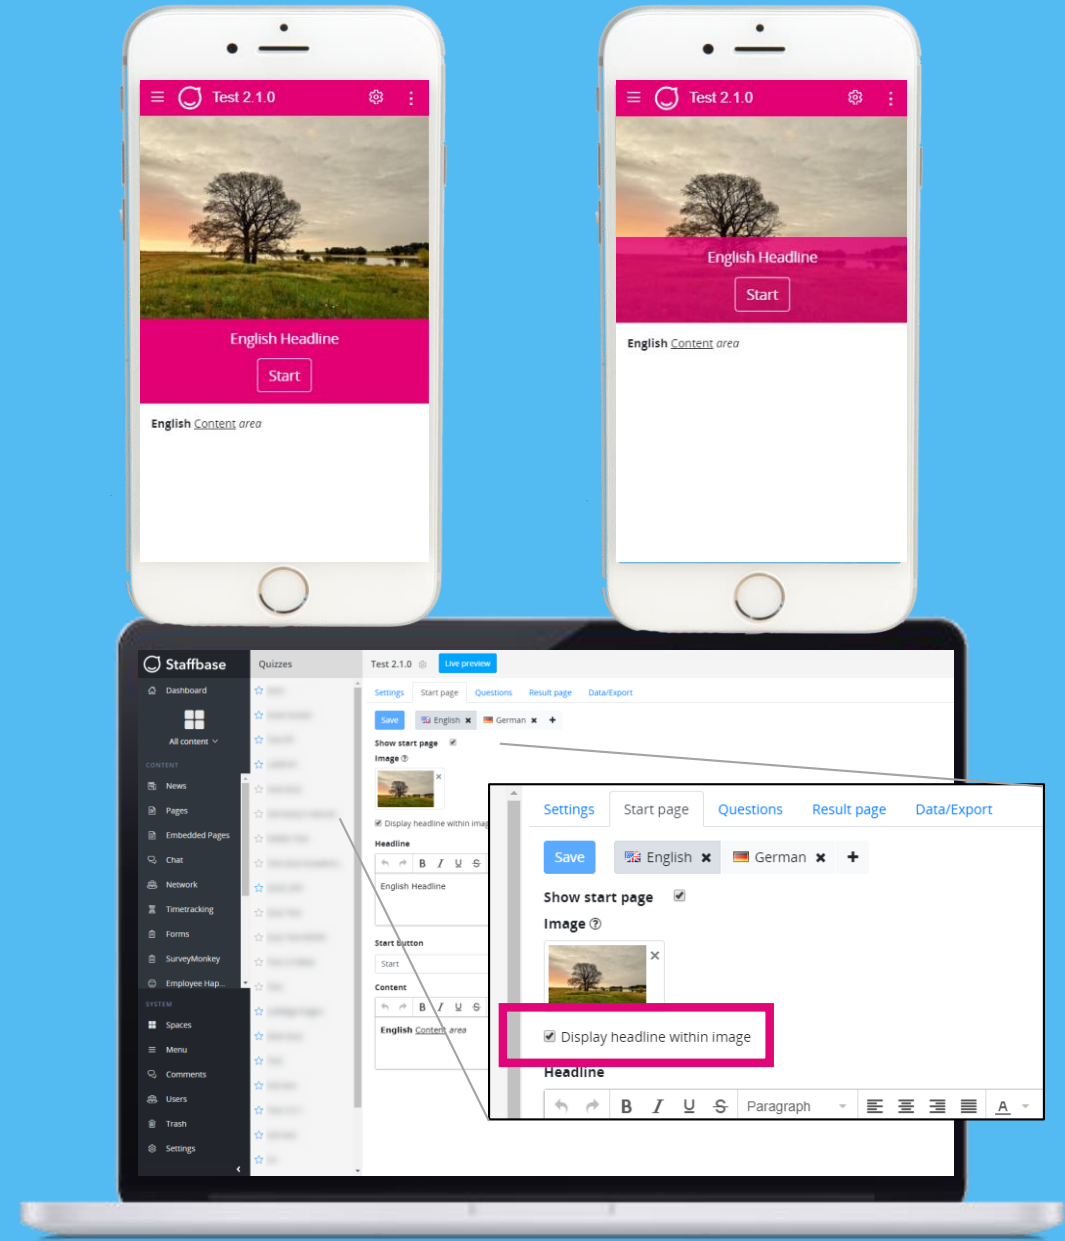

NEW FEATURES

Configuration of the start page – separating of picture and headline

We have often received feedback that when using images for the start page, the headline part overlays the image too much.

We have therefore integrated a new configuration option when using images for the start page. The editor can now decide for the start page whether the heading part should be displayed in the image or below the image.

Note: The configuration option is only visible when an image is used.

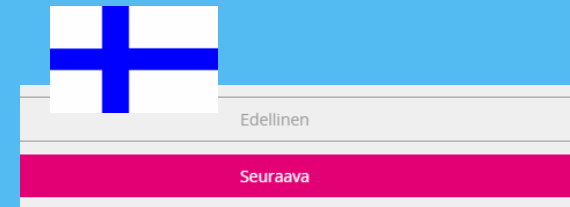

02

IMPROVEMENTS

IMPROVEMENTS

New language support: Finnish

The standard navigation elements are now available in Finnish.

03

BUGFIXES

BUGFIXES

Some minor bugfixes, nothing to talk about...
