Quiz Plugin.
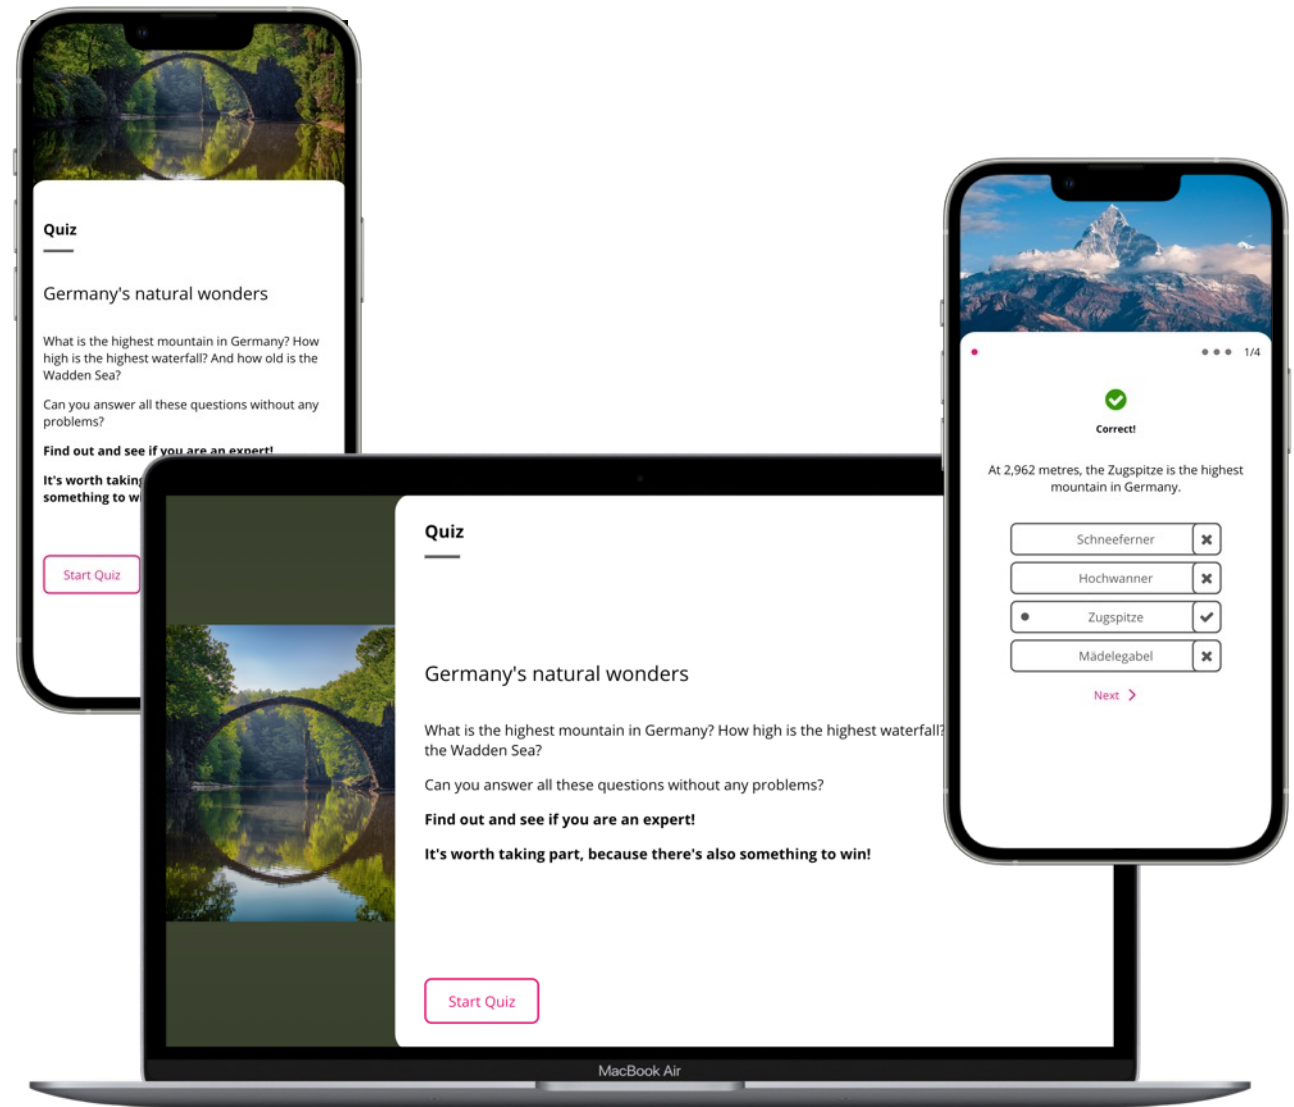

Release Notes Version 3.3

Plugin Quiz.

🔍 Use Cases

Transform your intranet or employee app into an engagement hub with our powerful quiz plugin! Designed to motivate employees and spark participation, this tool is perfect for competitions, e-learning, and more

Whether you're boosting engagement or delivering training, our quiz plugin makes it easy, fun, and effective.

Features

- **Unlimited Questions & Customizable Feedback:** Tailor quizzes to your needs and provide instant, personalized feedback for better engagement.
- **Participant Ranking (Optional):** Motivate employees with friendly competition through end-of-quiz rankings.
- **Optimized for Desktop & Mobile:** Accessible on any device.
- **Anonymous & One-Time Participation:** Encourage honest feedback and inclusivity with flexible participation options.
- **CSV-Export for Results:** Analyze quiz data easily with exportable results for actionable insights.
- **Random Mode & Templates:** Keep quizzes dynamic with random question selection and save time with ready-made templates.
- **Scheduled Activation:** Plan quizzes with start/end dates to align with campaigns, training, or events

Release Notes – Quiz 3.3 - Overview.

NEW FEATURES

- Time limit for questions

IMPROVEMENTS

- Note for editors that the ranking is not available for anonymous participation
- Translations for Hungarian language

01

New Features.

Time limit for questions.

With this release we are introducing a new optional feature that allows administrators to set a **time limit for answering questions.** Participants will then be given the opportunity to respond within a certain timeframe.
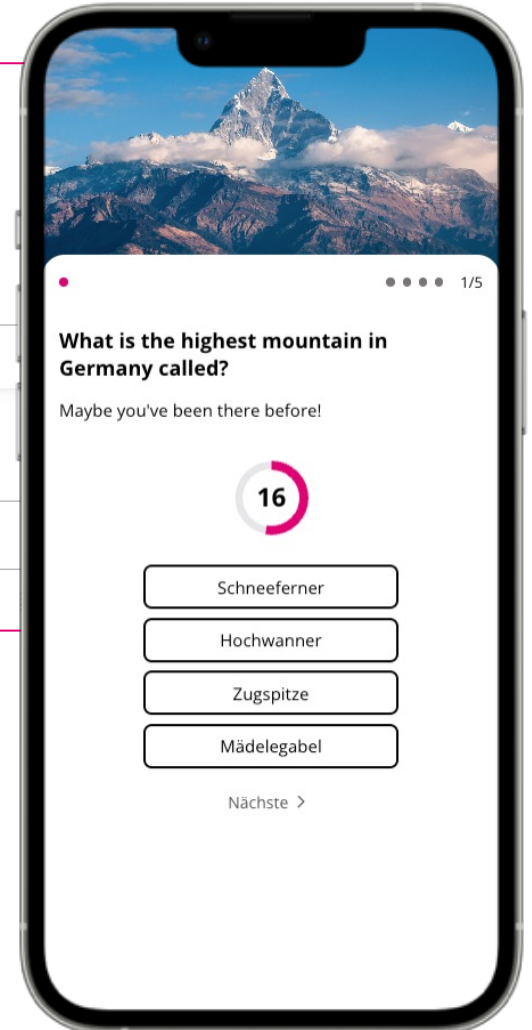

If the time limit is exceeded, this is clearly displayed to the respondent - both immediately after the question and in the final evaluation. Participants automatically receive 0 points for questions where the time limit has been exceeded.

This feature adds an extra dimension of interactivity and excitement to your quiz.

In addition, the time a participant needs for a quiz is also included in the analyses, which can be downloaded as a CSV file. This means that time can be a decisive criterion in future in the event of a tie.

02

Improvements.

Improved translations.

Note for editors that the ranking is not available for anonymous participation.

So far, it has not been mentioned anywhere that the ranking is not available in anonymous mode. This has caused confusion among some customers. We have added a tooltip to this effect.

Rankings visible for participants ⑦ ☐ ⚠️ Ranking is not available in anonymous mode.

Translations for Hungarian language 🇭🇺.

The user interface for the quiz plugin is now also available in Hungarian.
